T-585-70-W3 - Two-Piece Bronze Ball Valve - Full Port, Three-Way, Threaded

The NIBCO® bronze ball valve provides ease of operation with quarter-turn (90 degrees) open to close. The reinforced PTFE se ring and brass hard chrome plated ball exhibit high chemical resistance properties and is recommended for many high pressure applications. The two-piece valve features thread ends for easy installation. Please refer to NIBCO technical data sheet, valve selection guides and catalog for engineering and installation information. Choose NIBCO® ball valves for the most
